Subject: **Request for Approval of Final Year Project**

Respected Sir,

We are writing to request approval for our final year project titled "**Smart Garbage Management System**." As diploma students in our 5th semester of Computer Engineering, we aim to tackle the challenges associated with waste management through the implementation of smart technologies.

Our project will involve connecting a NodeMCU microcontroller with Firebase to facilitate real-time data communication. We will develop a mobile application to monitor garbage levels, send alerts for timely collection, and optimize garbage collection routes. This system will not only enhance efficiency but also contribute to a cleaner environment.

We kindly seek your guidance and approval to proceed with this project.

Thank you for considering our request.
